Community Funding Requests Policy

Purpose

The purpose of this policy is to outline the council's position in considering financial requests from community groups and organisations as part of the council's annual budget.

The council recognises its duty to the community in ensuring the responsible distribution of financial resources. This responsibility necessitates a fair, transparent, and equitable approach that optimises community benefit.

This policy aims to ensure consistency in decision-making processes related to financial request. Additionally, it specifies the obligations placed on funding recipients, ensuring that allocated funds are used for their intended purposes and that reporting requirements are fulfilled.

Scope

This policy does not pertain to feedback and suggestions offered by community members to inform the development of the council's annual budget. Instead, it is relevant to all direct financial requests made by community groups and organisations to Wodonga Council through the annual budget processes.

This policy does not cover:

- Sponsorships and donations.
- Sponsorship related to event attraction.
- The Young Achievers Scheme.
- Indirect support, such as the provision of buildings, facilities, land, or in-kind assistance from the council.
- Rate exception or rate reductions for charitable organisations.

Policy

Background

The council's budget is developed annually within an overarching planning framework. This framework guides the Council in addressing both short-term and long-term community needs and aspirations, as articulated in the Community Vision and Council Plan, respectively.

The Council frequently receives requests from the community seeking financial contribution for a variety of projects through the annual budget. Implementation of this policy will ensure that responses to financial requests in the annual budget are managed consistently with identified community needs and in line with the Council's strategic priorities, ultimately delivering benefits to the community.

Each year, the council will consider funding projects within the Community Financial Request program that:

- Align with the priorities and vision of our community as outlined in the Council Plan;
- Ensure community benefit beyond the group or organisation seeking funding;
- Encourage voluntary activity and civic participation; and,
